Feedback from group:
- Alt text (citation on image figure out)
- On resume page: write it out how the const line in script
- Idea: instead of using script.js, I can just work with the button click on html (but have to figure out how)
- Make full colored paged (in the index body, put margin: 0;
- Colors are good
- The period on the main-nav may look kind of odd

Notes and Tips:
- Vh (for the jacket image style)
- Add contacts on wireframe
- Search bar (use placeholder to have text within the bar)
- Add border to images

Class Notes:
- For website example, look at:
  - Scrolling
  - Parallax
